Dr. Herman, also the recipient of the Academy’s prestigious 2016 Scott Nadler Award, presented his research findings in a live lecture theater format on October 14, on the increased risk of musculoskeletal injury after concussion.

Two of the eight leading papers selected from the academy’s assembly in General Rehabilitation and MSK and Sports Medicine were presented by Dr. Heather Vincent [11] (Transformational Coaching after Orthopedic Trauma and Lacrosse Motion Features that Predict Shoulder Pain).

Dr. Horodyski [12] also led a hands-on skills workshop for physicians on spine boarding and cervical-spine trauma on October 14.
