## Letter from the Chair

Greetings alumni and friends,

In this issue of INSIGHTS, we highlight our graduates and incoming residents and fellows. In addition, we welcome Luis Pulido, MD to the faculty of our adult arthroplasty and joint reconstruction surgical service.

The department continues to grow and prosper. We now have clinical operations in Gainesville at OSMI, the CMS building, the Haile clinic and most recently the new Heart, Vascular and Neuro tower at UF. Some of the faculty also travel to provide service in Ocala, the Villages and in Orlando. We are eagerly awaiting completion of a new home for our partners in neurology. When their building is complete we will occupy the entire OSMI with orthopedics and related operations. Members of the faculty, staff and research division are

making discoveries and making great strides with translational science.

The Enneking Society annual meeting will be held this fall. This event is both intellectually stimulating and collegial. Please attend to catch up on some interesting orthopedic topics and to get together with old friends and new colleagues. We hope to see you then.

Best wishes,

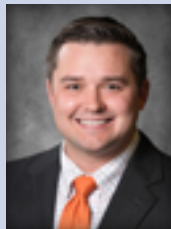

Mark T. Scarborough, MD  
 Chair, UF Department of Orthopaedics and Rehabilitation

# Welcome New Faculty

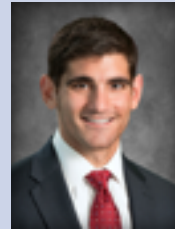

**Luis Pulido, MD** is a board certified and fellowship-trained orthopaedic surgeon. Dr. Pulido completed an orthopaedic surgery residency, followed by a fellowship in hip and knee adult reconstruction surgery at the Mayo Clinic in Rochester, Minnesota. After completing his joint replacement fellowship, Dr. Pulido did the Hip Society's M.E. Müller European fellowship in hip reconstruction where he learned surgical techniques in hip preservation and joint replacement from Europe's best surgeons. Dr. Pulido joins the University of Florida to work in the department of Orthopaedics and the division of joint replacement surgery. His areas of expertise include hip and knee replacement surgery, complex revision surgery, management of infection and periprosthetic fractures. Dr. Pulido's clinical interest include the comprehensive management of hip disorders including minimally invasive anterior hip replacement surgery, open hip preservation surgery, periacetabular osteotomy for adult hip dysplasia and hip arthroscopy. Dr. Pulido is a caring physician who is fluent in both Spanish and English.

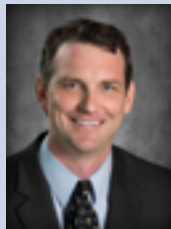

## 2018 Graduating Residents

**T. Brad Clay, MD**  
*Sports Medicine Fellowship  
American Sports Medicine Institute  
Birmingham, Alabama*

**Houtan Taba, MD**  
*Spine Surgery Fellowship  
University of Wisconsin  
Madison, Wisconsin*

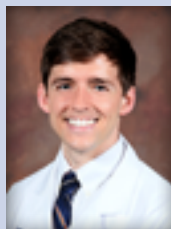

**Braden Jones, MD**  
*Private Practice  
Orthopaedics Associates  
Evansville, Indiana*

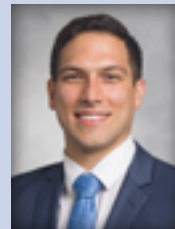

**W. Zach Stone, MD**  
*Adult Reconstruction Fellowship  
University of Florida  
Gainesville, Florida*

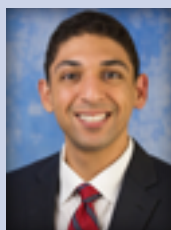

## 2018 Incoming Residents

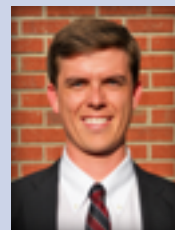

**Robert MacDonell, MD**  
*Medical College of Georgia*

**Paul Rizk, MD**  
*University of Texas Southwestern*

**Joseph Monir, MD**  
*University of Florida*

**Austin Wallace, MD**  
*Medical College of Georgia*

# Did you know? Dr. Parker Gibbs was Appointed Chief Medical Officer for UF Health

University of Florida Orthopaedic Oncologist C. Parker Gibbs Jr., MD, was named chief medical officer for UF Health Shands, effective October 31, 2016.

In this role, Gibbs oversees medical staff practicing within UF Health Shands and provides a framework for a culture of safety and measurement of the quality of care by physicians and other clinicians. He also will represent UF Health Shands in physician recruitment, credentialing, discipline and continuing medical education, and will continue as an active, practicing member of the medical staff.

## 2018 Residents and Fellows Graduation

# Team Tumor Goes to Amsterdam and England

Spring in Holland is a glorious time, with the tulips in full bloom and when the warm weather is matched and often bettered by the warmth of the Dutch. It was around this time of year that the 2018 European Musculo-Skeletal Oncology Society was being held in Amsterdam and around which the Second Advanced surgical techniques in pelvic reconstruction was planned as a pre-course. It was the perfect opportunity to strengthen old bonds, forge new ones, and to be exposed to refreshing new ways of approaching orthopaedic oncology.

Andre Spiguel and I met up with Adam Lindsay (a former UF fellow and current faculty at the University of Connecticut) at the airport and kicked off our whirlwind European tour. A 20-minute train ride from the airport at Amsterdam through the Dutch countryside and we were at the Leiden Central station where we met up with two current UF oncology fellows, Adam Wooldridge and Colin Anderson.

Leiden is a bustling college town and home to Universiteit Leiden or Leiden University. Leiden University is the oldest university in the Netherlands, having been founded in 1575, and being associated with many great discoveries and inventions including the identification of Factor V Leiden and the first practical electrocardiogram by Willem Einthoven. The Second Advanced surgical techniques in pelvic reconstruction course was organized by Professor Sander Dijkstra of the Leiden University Medical Center (LUMC) and hosted most graciously by members his department. The course with a participant to faculty ratio of around 1:3 was the perfect blend of discussion of controversies, exposure to the novel surgical techniques, beer and Bitterballs (a Dutch snack and perfect accompaniment to beer that tastes much better than its crude English translation sounds). With our first stop over, we proceed to the Amsterdam for the EMSOS.

The EMSOS meeting in Amsterdam is the musculoskeletal oncology meeting on the “other side” of the Atlantic, and in some sense similar in scope to the Musculoskeletal Tumor Society Meeting in the USA. The diverse nations of origins of the participants definitely did lend a very different flavor to this meeting and I found it marked by a conviviality that I soon learnt was uniquely Dutch. While the meeting was European, many participants hailed from outside Europe, with numerous attendees from the USA, and the Asia Pacific. It was a good time to catch up former oncology fellows such as Gerald Powell

of Melbourne, Australia and to reminisce regarding the Gainesville of old with Professor Antoni Taminiau who on his return from a fellowship with Professor Enneking went on to spearhead the development of the Orthopaedic Oncology Unit at Leiden.

With the meeting behind us, Andre and I proceeded to our final stop in the United Kingdom, the Royal Orthopaedic Hospital in Birmingham. For our 2 day visit to the busiest orthopaedic oncology unit in the UK and arguable in Europe, we were fortunate to have a great host in Professor Lee Jeys. We observed in surgery, sat in on a multidisciplinary sarcoma board where nearly 80 patients were discussed, and explored some back lanes and pubs of Birmingham with Professor Jeys.

This marked the close of our 10 days of combining oncology with Bitterballs and bitter ales. A most sweet experience, we came out much enriched by the experience and closer to our fellow orthopaedists both stateside and across the pond.

**Chung Ming Chan, MD**

*Assistant Professor*

*Hand and Upper Extremity, Orthopaedic Oncology*

## Kevin Vincent, MD Represents the American College of Sports Medicine (ACSM) in Kenya

Dr. Kevin Vincent was selected as one of the internationally recognized physicians to represent the American College of Sports Medicine (ACSM) to travel to Kenya, Africa in October of 2017 to provide training to the physicians in the country. Dr. Vincent remained in Kenya for 10 days, providing didactic lectures on exercise physiology, sports medicine topics, hands-on tutorials and cultivating relationships with physicians from around the continent. Dr. Vincent is currently serving as an ACSM Board of Trustees Member and active Chairperson of ongoing educational and conference committees.

## Dr. Kevin Farmer Recently Presented in Glasgow, Scotland and Mumbai, India

The British Shoulder and Elbow Society 2018 Annual Scientific Meeting was held at the Scottish Event Campus in Glasgow from June 20, 2018 – June 22, 2018. Dr. Farmer attended the conference and presented his research on “Comparison of Clinic Outcomes with Posteriorly Augmented aTSA & rTSA Glenoids.” This is the premier Shoulder and Elbow Meetings for the United Kingdom. He was able to sneak away from Omaha while covering the Gators at the College World Series to attend.

Dr. Farmer also attended the 5th International Meeting of Arthroscopy Academy 2018 in Mumbai, India which took place July 27-28, 2018. He was there representing the Arthroscopy Association of North America (AANA), and gave several talks. This is a large arthroscopic meeting, with over 700 attendees.

# 2017 Tailgate Event

# 2018 Visiting Professor

Michael T. Archdeacon, MD, Professor and Chair at the University of Cincinnati, was invited by our Chief Residents to be our annual Visiting Professor April 24-25, 2018. During his visit, Dr. Archdeacon is a fellowship trained Orthopaedic Traumatologist who gave several lectures and led a cadaver lab with the residents teaching various procedures and exposures.

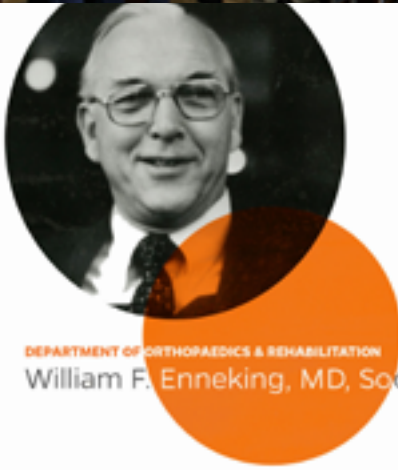

## Houtan Taba, MD Recognized with Excellence Award

Dr. Houtan Taba received the 2018 University of Florida Society of Teaching Scholars Outstanding Resident Educator Award for the Department of Orthopaedics and Rehabilitation. The award recognizes Dr. Taba's excellence in teaching colleagues and medical students.

New Orleans, Louisiana

# Enneking Society Annual Fall Meeting

The William F. Enneking, MD Society annual fall meeting took place on November 18, 2017 at the Orthopaedic and Sports Medicine Institute. The program featured several prominent lectures including keynote speaker, Dr. Dempsey Springfield. Following the meeting, participants joined the annual Department of Orthopaedics and Rehabilitation Tailgate and the UF vs. UAB football game.

The William F. Enneking, MD Society was created in 2016 to bring UF Orthopaedics alumni and friends together on a regular basis to network, socialize, share current trends in orthopaedic surgery and support the education, research and clinical mission of the UF Orthopaedics Department. Dr. Thomas Wright is the Society's inaugural president.

The Society will host two meetings a year, once in the fall over a Gator football weekend and once at the Academy Annual Meeting, with CME credit available at the fall meeting.

There are two membership levels – an Annual Membership for a donation of \$350 or a "Lifetime Membership" for a contribution of \$5,000. Contributions to the endowment are tax deductible and will support the activities of the Enneking Society and the UF Department of Orthopaedics and Rehabilitation.

Visit [www.ortho.ufl.edu/enneking-society](http://www.ortho.ufl.edu/enneking-society) for more information.

# PMR Faculty Deliver Key Research and Win Awards at American Medical Society for Sports Medicine (AMSSM) Conference

Dr. Jason Zaremski’s observational study, “An Unaccounted Workload Factor: Pitch Counts in High School Baseball Pitchers. An Observational Study.” was selected as the Best Overall Research Award winner for AMSSM 2018. Dr. Kevin Vincent served in a distinguished international panel of speakers who kicked off the AMSSM meeting to 2,000 members.

The opening session was titled, “Reaching our stride: Hot topics in foot and ankle.” He also presented “Choosing the right running shoe.” Dr. Dan Herman performed a podium presentation of research on the effect of headgear use on concussion incidence in girls’ lacrosse since the inception of the helmet mandate in Florida. He also presented in sessions including, “How to survive peer review” and “Harnessing neurocognition for sports performance and rehabilitation.” Giorgio Negron, a medical student who was previously in the First Year Discovery Program with Drs. Heather Vincent and Dan Herman presented a case report, “16-year old baseball player with history of tingling fingers.”

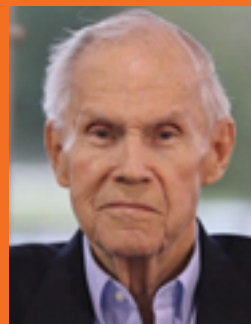

## IN MEMORIAM

### M. Christopher Talley, MD

Dr. M. Christopher Talley passed away on April 28, 2018. He was born on November 23, 1964 in Roanoke, Virginia. He earned his doctorate in medicine

from the University of Virginia in 1991 and finished his orthopedic residency at The University of Florida in 1996. Following residency, he completed a sports medicine fellowship with Dr. William A. Grana in Oklahoma City, with emphasis on shoulder and knee arthroscopic procedures. He then became a member of the Duke University Orthopedic team. In 2000, he relocated to Vero Beach, FL to partner with Dr. Peter Wernicki at Pro Sports, Inc.

### Steve Hoyt Gilman, MD

Dr. Steve Hoyt Gilman, 83, of Ocala, FL passed away on Monday, February 26, 2018. He completed his residency in our Orthopaedic Surgery program in

1965 as part of our third graduating class. He established the first private practice of Orthopaedic Surgery in Ocala in 1965. He was certified as a Fellow in the American Academy of Orthopaedic Surgery, President of the Marion County Medical Society and Member of the Medical Advisory Committee of the University of Florida.
