A Brief History of the *Seminar in Musculoskeletal Pathology*

William F. Enneking, MD
1963: EIGHT SOUTHEASTERN RESIDENCIES

RESIDENCIES: Emory University, Medical College of Georgia, Tulane University, University of Florida, University of Kentucky, University of Miami, University of South Carolina, and Vanderbilt University

MATERIALS: Slides, Microscopes, & X-rays

LENGTH: One weekend per year

SITE: University of Florida Student Lab

SUBJECT: Pathology of Musculoskeletal Neoplasia

FACULTY: William F. Enneking, MD, & Suzanne S. Spanier, MD, (Pathologist)
1968: Opened to all residencies:
   One week in length
   Limited to 40 participants

1976: Increased to two weeks
   covering both non-neoplastic and neoplastic lesions

1980: A second seminar in the fall was added
   to accommodate the growing number of participating residencies
1981: Moved to the Whitney Laboratory at the University of Florida’s Marine Science Center at Marineland

Seminar became known as the “Beach Course”
1984: Catherine C. Cooper became the Seminar Administrator

1992: Mark T. Scarborough, MD, joined the faculty

1994: Hard Times

1996: Gene Cornwall, Med, and Richard Rathe, MD, from the University of Florida Medical Informatics Department developed the *Clinical Musculoskeletal Pathology* CD-ROM and syllabus

Computer Technology was added to the microscopic study
1999: Pathologist John D. Reith, MD, joined the faculty when Doctor Spanier stepped down. Computer Technology replaced the microscopes.

2003: C. Parker Gibbs, Jr., MD, joined the faculty.
